Each office independently owned and operated.
Can you think of anything that attracts more attention in the neighborhood you’re trying to farm, than the amazing, 8 am appearance of a 7–story tall hot air balloon in the local elementary school playground? With 500 arriving school kids squealing with delight while their parents stare in amazement? RE/MAX of Texas can provide you with a simple school science unit on “how hot air rises,” and easy instructions for inviting the local community paper and creating this spectacle in your own school.

The balloon event was awesome. There were over 450 children there, not including teachers, parents, and local media. The kids loved it. The balloon pilot wasn’t just a skilled aviator, but also a great entertainer and educator. This event and RE/MAX really did make an impact on everyone in this community!”

**RE/MAX of Texas Ballunar Liftoff Festival**

RE/MAX of Texas is the title sponsor of the RE/MAX® Ballunar Liftoff Festival, the annual non-profit family event held at the NASA Johnson Space Center each October. The mission of the state’s most exciting balloon festival is to advance children’s interest in math and science by tracing mankind’s fascination with flight.
